RESPONSE

Sir:

In the Office Action of October 3, 2007, Claims 1-20 were rejected under the judicially created doctrine of Obviousness-type double patenting as being unpatentable over claims 1-14 of U.S. Patent No. 6,395,660, over claims 1-7 of U.S. Patent No. 6,333,287 and over claims 1-14 of U.S. Patent No. 6,841,494.

In response to the obviousness-type double patenting rejection, a terminal disclaimer for U.S. Patents No. 6,395,666, No. 6,333,287 and No. 6,841,494 has been filed. A terminal disclaimer fee of \$130.00 is attached.

In the Office Action, claims 1-20 were rejected by U.S. Patents No. 6,333,287 and No. 6,841,494 because the overlapping ranges have been held to established prima facie obviousness.

In response to the above rejections, it is submitted that the conflicting inventions were commonly owned at the time the

invention in this application was made. Patent assignment abstracts of the two patents are attached herewith.

It is believed that the application is now in condition for allowance.

Reconsideration and allowance are earnestly solicited.

If any other fee is required, please charge to Deposit Account No. 11-0219.

Respectfully Submitted,
